Curative Value In Food?

"Recalling that 90 per cent of disease results from errors in diet, then foods properly prescribed by the physician can justly be said to have curative value."

—Dr. Henry B. Hollen, in The Medical Standard.

One of the errors in the diet of many people is the use of foods robbed of the vital mineral salts (phosphate of potash, etc.) which are absolutely necessary for proper balance of body, brain and nerves. The result is a long list of ills, including nervous prostration, kidney trouble, constipation, rickets in children, and so on.

Twenty years ago a whole wheat and barley food, containing all the nutriment of the grain, including the priceless mineral elements, was devised especially to correct errors in diet. That food is

Grape-Nuts

It fulfills its mission admirably.

Another physician says:

"Nearly half the year my breakfast consists of a dish of Grape-Nuts, one or two eggs, or fruit. I RECOMMEND IT TO MY PATIENTS CONSTANTLY, and invariably with good results."

This wholesome food not only builds sturdy health and strength, but fortifies the system against disease. Ready-to-eat, nourishing, economical, delicious—

SELECT DATES FOR BIG FLOWER SHOW

On Next Wednesday and Thursday at Convention Hall, Is Dope.

A WONDERFUL SIGHT

Thousands of Chrysanthemums and Plants to Be Exhibited.

The board of city commissioners during its meeting this morning will be asked to grant permission for the use of convention hall next Wednesday and Thursday, November 10-11, for the first annual chrysanthemum show. There is no doubt that the show will be a most interesting and profitable one, and the city will be the beneficiary of the show.

Those who have attended chrysanthemum shows elsewhere are enthusiastic over the efforts of the park board, while the few who have never seen exhibitions of the kind have a great deal to learn. No flower is more beautiful than the cultivated chrysanthemum, and some of the blooms which will be displayed here are marvels of color and size. In fact, members of the park board are convinced some of the flowers which now are being grown in the city are of the same quality as those raised elsewhere.

An Annual Affair.
The chrysanthemum show is the typical fall flower and in all principal cities of the country there are such shows as that which will be held here every fall. If the local undertaking is successful, and there is every reason to believe it will be, it is the intention to hold it every year that Tulsa may

GET IT FIRST—NOT LAST

When a cold grips your system it is convincing proof that your condition is weakened—remember that. It is risky indeed to simply trust your strength to throw it off, because neglected colds have brought more serious sickness than any other one thing, while weakening cathartics and stimulating syrups are often depressing and dangerous.

The one best treatment for any cold—the one so often relied on when others fail—is the powerful blood-nourishment in Scott's Emulsion, which feeds the very sources of bodily strength to suppress the present cold and generate strength to thwart further sickness.

Get Scott's first, not last—and insist on the genuine—always free from alcohol and injurious drugs.

Scott & Bowne, Bloomfield, N.J.

become a city of roses. That is, following the show, the chrysanthemum and other flowers exhibited will be sold to the highest bidder, the proceeds going to build a rose house at Owen park. From this rose house roses will be sold to the highest bidder at cost, and in this manner it is almost a certainty that within a few years Tulsa will be quite as famous for its roses as it now is for oil.

Afternoon and Night.

The chrysanthemum show will be open afternoon and night. The plants will be so arranged that visitors may inspect them without crowding. If the main floor is too small to accommodate the thousands of plants on display, then the stage and galleries will be used.

Every variety in the "mum family" will be there. Some will be yellow, others white and still others maroon, pink, light red, lavender and blue. Many mixed hues. There will be the popular compact variety and those which resemble the head of a football player when he is angry. Some will be as big as the ordinary human head, while others will be about the size of a 50 cent piece. No specimen of the family has been omitted by the park board, and those who attend this show will see every kind of chrysanthemum thus far created.

Lots of Varieties.

But there will be all the other flowers, too. Over here you'll see some of mother's favorites—the kind you remember plucking in the garden at home, while over yonder there will be roses, lilies and all the common household plants, only brought to
